The channel key now always controls the device associated with the mode you selected in this procedure, whether in STB, TV, DVD, or AUX mode.

• If any other key is pressed except the Mode keys and all the mode keys flash twice and the remote returns to normal operation.

Reassign Mode Keys

You can designate a key to operate one device at a time. For example, if you want to control volume through your TV, press and release the TV/VIDEO key. The TV/VIDEO key is now associated with the TV device.

What Devices Do I Want to Control?

• If any other key is pressed except the Mode keys and all the mode keys flash twice. The selected mode key flashes three times indicating a successful entry.

Note:

2. Press and hold the TV/VIDEO key on the remote.

3. Release both the keys and all the mode keys flash twice.

4. Enter the programming code 1 by pressing the key on the remote. The device key turns off, and you must start over from step 1 of this procedure.

5. Enter the programming code 4 by pressing the key on the remote. The device key turns off, and you must start over from step 1 of this procedure.

6. The selected mode key flashes three times indicating a successful entry.

When new codes are added, refer to the Code Tables at the end of this guide to locate additional modes and additional programming codes.

What if None of the Codes Work?

Note:

**Troubleshooting**

- **Check the Batteries:** Are the batteries installed correctly?
- **Check the Batteries:** Check the battery condition for leakage. Replace with new alkaline batteries.

**Code Tables**

If the remote does not recognize your device, you can find codes for your device by trial and error. Codes listed in this section are organized by the devices assigned to each mode. TV, DVD, and AUX.
