 Effective: 10/15/13

A. OUTBOUND ENHANCED FLEX PLAN (Domestic Calling)

(T)

Outbound Service allows customers to originate direct dialed calls over standard customer-provided switched access lines to anywhere in the continental states.

Calls are billed in six- (6) second increments with fractional minutes rounded to next higher minute unless specified differently under the plans listed below. Rates apply to calls lasting at least thirty (30) seconds.

1. <u>Volume (MOU)</u>	<u>IL, MI, MN & WI</u>

B. INBOUND ENHANCED TOLL FREE FLEX PLAN

Inbound Toll-Free Number Service is an 8XX number that allows callers to originate direct dialed calls to the 8XX number without incurring a toll charge. The charge for using a toll free number is paid by the called party instead of the calling party. The service is available for use twenty-four (24) hours a day, seven (7) days a week. Service is terminated over standard Customer-provided switched access lines or in conjunction with Managed IP stations or trunks.

Interstate service is offered in conjunction with Intrastate service.

Calls are billed in six- (6) second increments with fractional minutes rounded to next higher minute unless specified differently under the plans listed below. Rates apply to calls lasting at least thirty (30) seconds.

The Carrier will make every effort to reserve toll-free vanity numbers on behalf of Customers, but makes no guarantee or warranty that the requested toll-free number(s) will be available or assigned to the Customer requesting the number.

The Customer does not retain rights in toll-free numbers, which are shared with other Customers of the Carrier. Shared toll-free numbers are not portable. Toll free directory listing will not be provided.

If a Customer accumulates undisputed delinquent charges, the Carrier reserved the right not to honor that Customer's request for a change in service until such charges are paid in full.

These plans are available only to customers who are enrolled in TDS Long Distance's Intrastate Toll Free Service Plans.

Individual contract terms and conditions for Managed IP service shall also apply and such terms and conditions will supersede tariff or price list if inconsistent.

D. BUNDLED OFFERINGS (IL, MI, MN, & WI)

1. Managed IP (MIP) Station, Trunk, or Feature Packages (T)
 - a) General

MIP Station, Trunk, or Feature Packages provides the customer with a predetermined number of interstate and/or intrastate minutes for a discounted rate when the customer also subscribes to other non-long distance services as part of a jointly marketed service package. The calling scope includes the 50 United States. (T)
 - b) Conditions
 - 1) Customers must have TDS Metrocom for both their IntraLATA and InterLATA carrier.
 - 2) When a customer switches from another carrier to TDS Metocom's Managed IP Station, Trunk, or Feature services, TDS Metocom's will be responsible for all PIC charges. (T)
 - 3) Long distance options are available under a Month-to-Month, 1, 2, 3, 4, or 5 Year Term rate as shown in the rate table D.1.c) below.
 - 4) Managed IP Station, Trunk, or Feature long distance services will be billed on a per station or trunk basis in conjunction with the associated jointly marketed Managed IP service. (T)
 - 5) Any usage above the predetermined block of minutes will be charged a per-minute rate.
 - 6) Unused minutes cannot be carried over to the next month.
 - 7) Calls are billed in six- (6) second increments, (fractional seconds are rounded to the next six-second increment) after a minimum call duration of thirty- (30) seconds.
 - 8) Monthly bills must be paid in full to remain subscribed to the Managed IP Station, Trunk, or Feature long distance services. (T)
 - 9) Individual contract terms and conditions for Managed IP service shall also apply and such terms and conditions will supersede tariff or price list if inconsistent.

- (1) In order to receive these plans and rates, the customer must also subscribe to a corresponding Managed IP Station, Trunk, or Feature service package that is jointly marketed and provided by TDS Metrocom. (T)
- (2) This plan is for non-Managed IP lines associated with a v1 or v2 Managed IP customer. (T)
- (3) This plan is for v3 Managed IP hosted stations that do not include Unlimited Toll and POTS lines associated with v3 Managed IP or Managed IP trunk customers.
- (4) This plan is grandfathered to existing Managed IP Version 1 (v1) and Version 2 (v2) customers and is not available to new Managed IP customers effective 3/16/2010.
- (5) Unlimited toll plans cannot be purchased separately or added to services which do not specifically include unlimited toll.
- (6) Any unlimited service is being provided based on reasonable usage. Use of the service for auto dialers, long distance dialup access to the Internet or other information services, call centers, certain switching applications or other high volume calling applications is not permitted and will entitle TDS to terminate the Service upon written notice of the violation. TDS reserves the right to monitor a customer's usage to determine compliance with these limitations.
